

MAKING UP SLATES.

THE DAY IN WALL STREET.

Politicians Speculating on President Cleveland's Appointments.

Mayor Grant, Too, Can Dispose of Several Choice Plums.

Police Justiceships and Some Big Commissionerships to Be Filled.

The politicians' chief topic of discussion now is, who are going to get the offices.

Ex-Secretary Whitney, it is universally conceded, can have anything at President Cleveland's disposal that he wants. The next position of importance to the Court of St. Louis is reported to have said that he does not want the worry and responsibility of being master of the department, but if he enters the cabinet at all, it is believed, it is to carry out his universally favored plan of rebuilding the navy, the consummation of which Mr. Whitney devoutly wishes for.

If the general opinion in this city that the new Administration will not take long to begin housecleaning after taking possession of the Government. Since the Democracy is going to be solely responsible for the conduct of the nation's affairs, it is the opinion of Democratic politicians that good Democrats should be appointed as soon as possible to take the places of the Republicans in office.

The principal Federal officers to be appointed here are Collector of the Port, Naval Officer, United States Marshal, United States District Attorney, Postmaster, two Internal Revenue Collectors, Pension Agent, and several other important officers in the Custom-house, Appraisers' Stores and Immigration Department.

Major Grant also has a half dozen or more desirable offices to offer the Republicans, and it is thought that he will appoint his commissioners of Record, provided for by an act of the last Legislature. These Commissioners, with the Register of Deeds, are to be appointed by the new administration, and the records in the Register's office on the block system.

In the current that Mayor Grant will exercise his discretion and create the Commission despite protest, and that he will appoint George E. Kelly, one of his confidants, as Commissioner of Police. The name of Charles W. Dayton is mentioned for the other place.

The City is also much speculation as to whether Major Grant will name the successors of Mayor Gilroy as Commissioners of Public Works and County Clerk, and as Surveyor as President of the Fire Commission.

Mr. Gilroy's term as Commissioner does not expire until May, 1893, but next Mayor would have had the appointment of their successors under other circumstances, it is thought. Mayor Grant should leave to Mr. Gilroy the naming of his own successor and Mr. Purroy.

In the group going the rounds about him is a story that Major Grant does not want a renomination, and because he did not get it he may not consult the organization of the Department of Police Justice. There are two reasons given for such a course, one by the deaths of John P. Kelly and Daniel O'Reilly. The terms of Justices Duffy and Almon are due to expire in December, according to the official appointment book, and Justice Duffy maintains that his term will not be ended until Jan. 1, 1893.

Two new commissioners were appointed at the same time by Mayor Eason to take the places of two holdovers. The question is decided whether or not a replacement date from the day they took office of when the term of the holdovers expired, which was Nov. 4, 1888, or the date of justice Duffy and Almon's appointment.

If Justice Duffy's contention is correct, Major Gilroy will name his successor and Justice Kilpatrick.

There is interesting speculation concerning the possible appointments of four Justices to Mayor Grant. It is said that the Mayor will retain the services of his old associates, his right to all which is not questioned, on White Holly, his private secretary, and W. J. Kenny, Supervisor of the City Receiver, and will bring back his old commissioner Edward J. Fitzpatrick, who may be retained to re-appoint, while he may be named to some other office after Mr. Gilroy becomes Mayor.

AS TO THE VOTE IN OHIO.

Only Official Figures Can Settle the Result Satisfactorily to All.

BY ASSOCIATED PRESS:

COLUMBUS, Nov. 11.—At Republican headquarters at midnight, official returns on the head of the ticket had been received from 64 counties and with the others carefully estimated, showed a plurality of 14,400 for Taylor, the Secretary of State.

At Democratic headquarters at 11 p.m. it was stated that the figures at hand indicated a small Democratic plurality. The Committee to Elect Taylor said it proper to await the official count in that state. The Committee is claiming 600 plurality.

The Republican Committee also claim the right to the presidential electors, although Taylor (Republican) runs a little ahead of Harrison.

CLOSE WORK IN CALIFORNIA.

Cleveland's Plurality Depends on Figures Yet in Doubt.

SAN FRANCISCO, Nov. 11.—The latest computation made upon returns from 1,400 out of 1,924 precincts outside of San Francisco give Harrison \$1,900; Cleveland, 74,357; Weaver, 16,211. Harrison's plurality, 7,445, taking Cleveland's plurality in San Francisco as 7,299. It gives Cleveland a net plurality of 472.

There are still eighteen counties in the state from which less than two-thirds of the precincts have reported. These counties complete gave Harrison in 1888 a plurality of 542.

According to these figures, it seems the ultimate result of the election of Cleveland, and the actual plurality in San Francisco, and the final returns from 455 precincts yet unreported from the interior.

SUING AN EX-CIVIL JUSTICE.

The Selligmans Want \$6,793 from Leo C. Desser on a Stock Deal.

Ex-Civil Justice Leo C. Desser has been sued by the Bankers' Selligman for \$6,793, which, it is claimed, he owes them on certain stock transaction in which he was engaged in 1887.

Judge Desser sets up a counter claim for \$18,000 against bankers and dealers in the stock market, and claims that he is to him in that amount. The latter want to know more about this counterclaim, and have applied to Judge Andrews for a bill of particulars. Decision has not yet been rendered.

Toledo Booder Begs for Mercy.

TOLDO, Nov. 11.—Charles Neundorff, one of the seven condemned charged with soliciting bribes, when arraigned for trial yesterday acknowledged every point claimed by the state and begged for mercy. He tried to make out that he was a Methodist Episcopal church steward and Sunday-school superintendent, which is next, will commence Monday.

For the First Relief Fund, a sum was given by Neil Burgess at the Park Avenue, and this afternoon, for the relief of sixty persons burned out last Saturday, and a good sum of money will be added to the fund.

A piano recital will be given at Historical Hall, 10th Street, Wednesday, Nov. 16, at 8.30 p.m. The proceeds will be given to the fire sufferers.

Brisk Business Follows Subsidence of Election Excitement.

Heavy Selling Movement in American Sugar—The Quotations.

MISSSES' SUITS AND CLOAKS.

SIMPSON, CRAWFORD & SIMPSON.

SUPERIOR VALUES IN Boys' SUITS, OVERCOATS and REEFERS.

WALL STREET, FRIDAY, NOV. 11.—The day opened with a brisk and advancing market. There were free purchases for London, Chicago and Boston, as well as local accounts, and many stocks sold at the best prices for a long time past.

Railroad shares were far more conspicuous than during the week, with a good deal of confidence, especially Rock Island, St. Paul and Milwaukee & Madison. In some quarters the reaction in Chicago, Distilling & Cattle Feeding and a few others, which had advanced sharply before the elections, is attributed to the closing out of large lines in the pools which have been beaten them. Other shrewd guessers, however, believe that the demand for stocks is for the increase of hunting more stock at low figures.

General Electric is quite a feature and is doing well, while public utility stocks, Louisville & Nashville, St. Louis & San Fran, are also in great demand.

A Philadelphia newspaper quotes President McLean as saying that there is nothing in the report of the reading public companies showing a continuing interest in the Baltic and Ohio.

President Persons of the New England railroads, who are to meet in Boston, have engaged the steamer "Metropoli-

tan" to go to the West Indies and have en-

joyed the pleasure of the steamer.

The ever-increasing feature of the stock market this afternoon was the heavy selling movement in American Sugar. Wormer took over 6,000 shares and other leading firms followed suit, carrying the price down to 10c, the lowest for some time. The decline was attributed to a lowering of selling of the stocks of the company, a cutout, but later it became evident that a long inter-

val in the stock was indicating.
